Minutes for the Pesticide Groundwater use Reporting Subcommittee of the Task Force on the Regulation of Structural Pest Management – June 15, 2012

Room 126 of the Arizona Department of Agriculture, 1688 W Adams Street, Phoenix.

The meeting was called to order at 8:03 am. Lin Evans and Ken Fredrick (telephonically), Kevin Etheridge and Jack Peterson were present. Also present were Robert Tolton, Vince Craig (OPM), Casey Cullings (AG) and Robert Shuler – Shuler Government Affairs LLC.

There were no suggested changes to the minutes.

The draft of the rules was reviewed and additional changes were sought. The only issue to address is the term irrigation. Do people understand what that is? It was suggested that we could define what it is. It was also suggested we review a few labels to see what the language actually says regarding watering in (incorporating the pesticide).

Lin Evans moved that we forward the draft to the entire committee. Second by Kevin Etheridge. Unanimous vote in support.

No public comments.

Meeting was adjourned at 8:12 am.

Prepared by: Jack Peterson on 6-26-12
